

MST.TALBINAH HOQUE QARINA

About Me

I am a Software Engineering student with a strong interest in technology, software development, and continuous learning. I am responsible, adaptable, and eager to contribute in collaborative environments. Through my academic studies and projects, I have developed problem-solving, communication, and teamwork skills. As a Student Associate, I aim to apply my technical knowledge, organizational abilities, and positive attitude to support students, contribute to events and activities, and gain valuable professional experience while continuing to grow both personally and professionally.

Experience

- Jan 2025- Present
Academic Project Work
Junior Web Developer (Project-Based)
 - Developed small web applications using HTML, CSS, and JavaScript
 - Practiced building user-friendly pages and organizing project structure
 - Learned how to handle user inputs, simple storage, and dynamic functionality
 - Worked independently to improve logic and problem-solving skills
- 2024 - 2025
Independent Learning & Skill Development
Programming Practice (Non-Official Experience)
 - Gained experience solving coding problems using Java, C, and JavaScript
 - Practiced basic debugging, structure, and clean code habits
 - Explored UI layout design and flow for small applications

Education

- started in 2024
BSc.in Software Engineering
Daffodil International University,Dhaka
- Completed in 2021
Higher Secondary Certificate (HSC)
Joypurhat Govt Women's College,Joypurhat
GPA:5.00
- Completed in 2019
Secondary School Certificate (SSC)
Joypurhat Govt. Girls' High School,Joypurhat
GPA:4.78

Technical Skills:

- HTML
- CSS
- JavaScript
- Java
- C
- MySQL

Soft Skills

- Negotiation Skills
- Problem-Solving
- Time Management
- Presentation Skills
- Networking
- Market Research

Language

- English
- Bangla

PROJECTS

Bookshelf Management System (C Programming)

A simple console-based system used for adding, viewing, and managing book information. Helps users maintain book lists efficiently and improves basic file-handling understanding.

Expense Tracker Website (HTML, CSS, JavaScript)

A web application designed for students to record, edit, and track daily expenses. Includes user input fields, category options, and simple reporting features.
